MMNO

A new sound identity of Daniel Neves that presents itself as an evolution / variation / derivation of the sonority of his initial project MMMOOONNNNOOO with which he participated in Red Bull Music Academy Tokyo. He is also part of the trio CRUA and has the M̄Q̄N̄Q̄ project, with Joaquim Albergaria, PAUS drummer.

Polido

From the release of his first album "Plethora" to the latest "Find Meaning When You Lack Autonomy", Polido has been exploring poor sounds through cut-up and raw sampling. While his latest work shows an interest in aspects of functional music, this album and some of his next work will mark his departure for new places.

Carla Filipe

This plastic artist began her career in 2001 and since then she has presented her work in several cities around the world. From 2014 to 2015 she was into the electronic music scene of Porto, designing posters and also programming the club Passos Manuel in the connection of arts and music. Her recent work has enlisted the collaboration of musicians such as Polido, Gam presents GOM / GOM GOM and Challenger, Frieze London Focus, Uk (2016).

Fungo

Fungo is an artist collective based in Lisbon, who puts together people from different areas (graphic design, cultural management, video art, theatre, cinema). Its work is centered on the development and promotion of artistic projects from different art forms, from performing arts to music and media.

On 2014, Fungo became also a record label. Fungo Label will not be tied to any genre, there will be no aesthetic limits or restrictions of any kind. The collective intends to release projects that embody Fungo language and its own vision of music, whether it is experimental, rock, jazz, techno, or other.

The releases may have variable formats, with no regular basis, but will focus on cassettes and digital. For each edition, a plastic artist will work and draw inspired on the music; the final result will be divided in different parts making each cassette a unique object with its own artwork.
